Career English is a combined course that incorporates the Career and Enterprise and English providing students with the ability to develop practical English skills. By studying this combined course students receive credit for two courses within the one. This course is particularly applicable for students studying vocational training pathways.

Career English 1AB
Career English is a subject which combines two WACE courses into one. Students of Career English will complete tasks which allow them to demonstrate skills and knowledge relevant to both Stage 1 English and Stage 1 Career and Enterprise. This course focuses on language for health and safety, and language for the workplace. They will learn how to apply the English skills of reading, viewing, listening & speaking and writing to work-related activities such as applying for jobs, completing a job interview, researching and interacting professionally with others.

Course content:
During this course students will:
∞ Develop skills to work effectively as a team
∞ Investigate occupational health and safety requirements in the workplace
∞ Create and locate resources to assist with locating employment
∞ Learn how to write various types of workplace texts with accuracy and clarity
∞ Understand the purpose of various workplace texts
∞ Plan, propose and deliver an enterprising project
∞ Recognise examples of situations where they demonstrated employability skills in various workplace and learn how to use these examples when addressing selection criteria in a job application
