Take on the challenge to support 25 students joining the South West’s only secondary school specialising in Year 11 and 12 education.

Manea Senior College (MSC), is the only school that specialises in senior schooling in the South West region of Western Australia. The College caters for Year 11 and 12 students seeking university or vocational pathways. MSC opened its doors for business on February 2, 2009, with 150 Year 11 students enrolled, which soared to 502 students in 2014. The College also became the first secondary school in Australia to implement a Health and Medical Specialist program, which commenced in 2013.

Manea Senior College provides the foundation for students to find their place in the global community, developing values and social capabilities to become active and responsible members of society.

Manea Senior College is the senior College of choice, producing graduates who are independent learners, highly regarded by community, industry, employers, our precinct partners, health and medical organisations and other educational institutions.
