YOU + MANEA = ALL YOUR DREAMS COME TRUE
* terms and conditions apply

Michael, Jake and Andrew, highly motivated and successful Year 12s.

Being new, not many students know about what the change to Manea Senior College entails. So what’s Manea like? What is so good about Manea? Here’s what Michael and Andrew had to say...

At Manea, the first thing you’ll notice is the radically different atmosphere. The entire Manea ethos is constructed around a trust relationship between the students and the teachers. You are given more freedom because you are expected to manage yourself in a mature and efficient manner. In a way, it’s almost like university. Of course, this uni culture isn’t the only reason you should consider the switch. In addition to fantastic teachers, the College boasts a team of highly skilled tutors in a variety of subjects who are available daily.

But one of the most important things Manea will do for you is help you prepare for the world beyond school. We both sat the UMAT test earlier this year and were assisted in a number of ways, ranging from practice UMAT questions to talking to current medical students. This level of support is repeated throughout the College, to assist students in beginning their future now.

So, as graduating students of the College, we recommend you to give Manea a try. It is well worth it!

This newsletter is written by MSC students for students considering making the change to Manea.

September 2012 Edition

Don’t believe the negative stories!
Jake’s experience.

Unfortunately, a few staff at some schools try to convince students not to come to Manea by giving false information. When I was deciding to move to Manea, I was initially put off by the negative comments such as “Manea isn’t as good as you think and you’ll be back”. However, I moved halfway through the year anyway and found all the comments were untrue. I can definitely say that moving to Manea was the right choice and I haven’t been back.

(Jake didn’t want to add this, but he is one of the top Maths Specialist students in the region - Simon).

Meet Simon, one of our cool, specialist teachers.

Hi, my name is Simon, and I am one of the Maths Specialist teachers at Manea SC, as well as the Curriculum Manager. I have been at Manea since it opened and love the challenges and rewards of teaching the specialist course. I have always been passionate about maths and science and studied a double major in these two areas at Curtin Uni.

I am currently coordinating revision seminars for our students that will be run over the holidays. These seminars are run by our teachers, are free of charge, and will help prepare the Year 12 students for their upcoming examinations. When you join the Manea team, you too will be able to attend our annual ATAR revision seminars.

Cara
Making the move to Manea Senior College from Hope Christian College was a great decision. Manea gives young adults the opportunity and encouragement to not only reach their full potential through academic performance but also to grow as an individual. I find Manea a great working environment. My classmates are friendly and the teachers are supportive and always encourage me to achieve my best. I think it is great that Manea offers a free tutoring program in which students can ask for help and improve their grades.

Trinity
I attended Perth Modern School until this year. I chose to move to Manea SC because it presented me with lots of career choices. I would like to study Chemistry at UWA and MSC has helped me realise this. Manea has found the perfect balance between the traditional academic school system and a uni feel.

Kate
I moved to Manea Senior College from Bunbury Catholic College. I chose to come to Manea because of the different courses and the student independence that the College offers. The teachers are really friendly. I hope to go to Curtin University to study physiotherapy.

Course Information Update.

Now available: Certificate II in Telecommunications. Applications close Thursday 18th October.

Training Fees. Manea Senior College is one of the only schools that will pay up to $1000 off your training qualification fees. If you want to complete a training qualification along with your WACE call now.

Hairdressing. The SAL hairdressing course is not running in 2013 across the region, but Manea is having discussions to set up another hairdressing course. We will let you know as soon as possible if this will happen for 2013.

Places available For VET students: Some of our VET courses are now full for 2013, but we still have places available in a number of others, including Cert II in Telecommunications and Certificate II pre-apprenticeship Plumbing and Gas fitting.

Have you thought about our “free range chook” style VET choices? Find the training qualification of your choice and talk to us about how you can blend the course into Manea’s WACE subjects.

After hours Dance is filling fast, only 5 places left.

Manea has increased its offerings for 2013 and some classes are filling fast, so book your enrolment interviews now!

Students coming from private schools: Remember to let your current schools know you are coming to Manea by the end of Term to avoid the argument with them over paying fees!

World Challenge
This year, Manea is sending two teams to the World Challenge in Thailand in December. Our coordinator, Jane and MSC Accounting & Finance and Maths teacher, is seen here prioritising with students what they need to pack and organised a quiz night that raised over $5000. Students are already looking ahead to 2013, so new students will have the chance to participate in the World Challenge next year.
