Careers in Dental Nursing

Manea Senior College in conjunction with the Dental Nursing Australia and Kingston Training and Employment, would like to offer you a unique opportunity to combine your senior school studies and a career in dental nursing.

Certificate III and IV in Dental Assisting

With a growing population, Community Health Services including Dentistry is an expanding area for the future.

The Dental Profession is providing exceptional employment opportunities both in Australia and Overseas.

- If you enjoy working with people
- Desire to enter a highly respected profession
- Enjoy sound employment prospects
- An opportunity to further your career
- Have an interest in the health care sector

then Dental Assisting is your ideal career path

The Certificate IV in Dental Assisting provides you with advanced skills to assist and manage a clinical dental environment in Private Dental Practice, Government Dental Clinics or a Specialist Dental Practice.

Ensuring you attain the most elite and highly paid positions in the dental profession. Dental Nursing Australia graduates sustain a 99% employment rate. This qualification will also provide access to employment and a career Australia wide and overseas. Assist entry to further education at university or post graduate training. Certainly a wonderful journey ahead.

Delivery: 2 days per week at Dental Nursing Australia and 3 days per week at Manea Senior College. This allows you to complete your secondary graduation whilst achieving an industry standard qualification.

Duration: Four (4) school terms of approx 10 weeks

Payment options: Increment payment plans are available

Courses: Students are recommended to study Human Biology, Mathematics and English as part of their senior school studies with Manea Senior College.
