

BYOD @ MSC

At MSC each of our courses and programs aim to provide a flexible, professional, and innovative approach to the learning experience. So we choose to recommend devices that will offer the same.

Lenovo L13 Clamshell G4

\$999.00 incl. gst

Draw, Comment and Create! This 2 in 1 device is a great starting model and will meet the needs of almost all courses on offer at MSC.

*Not suitable for students needing a device for media or design courses**

Lenovo L13 Yoga G4

\$1,347.99 incl. gst

This laptop offers all the features of the Lenovo Clamshell with increased performance across the board. It will provide terrific performance for its price point and meet the needs of most courses on offer at the College.

*This model will meet the minimum requirements for media or design courses**

HP EliteBook x360 830 G10

\$1,779 incl. gst

This premium* laptop is the best performing model that MSC suggests as an option. This device is the most expensive model on the list and would best suit someone who is thinking about a future pathway in media-design and production environments.

To purchase your BYOD visit the MSC website

- **Locate the Parent Portal (top right)**
- **Select 'BYOD Purchase Portal'**

Enter the code:

ManeaSC2024

All students are welcome to bring an alternative device including those already used at home.

Windows laptops are the most compatible, Mac and I pads are suitable, however we do not recommend Chromebooks.

* Students enrolled in MSC's Design, Media and Graphic Design courses and are not obligated to purchase the above mentioned premium model HP EliteBook x360 830 as they have full use of the College's desktop computers in class.

Students are only encouraged to purchase this premium laptop if they choose to do significant amounts of media and design work outside of their classes.
