

BYOD @ MSC

At MSC each of our courses and programs aim to provide a flexible, professional, and innovative approach to the learning experience, so we choose to recommend devices that will offer the same.

Lenovo 13w Gen 2

\$1,099

The Lenovo 13w is a great choice for students. With AMD Ryzen 7000 Series power. Windows 11. and a 13.3' FHD touch display. this 2-in-1 laptop makes handling schoolwork straightforward. It's lightweight, has all-day battery life and supports WiFi 6.

Not suitable for students needing a device for media or design courses.

Lenovo L13 Yoga G4

\$1,375

The third generation of the 13.3-inch ThinkPad L13 Gen 4 2-in-1 laptop delivers powerful 13th Gen Intel performance and graphics. With a 360-degree hinge. This device will provide terrific performance for its price point and meet the needs of most courses on offer at the College.

This model will meet the minimum requirements for media or design courses.

Lenovo L13 Yoga G5

\$1,933

This premium laptop is the best performing model that MSC suggests as an option. This device is the most expensive model on the list and would best suit someone who is thinking about a future pathway in media-design and production environments.

To purchase your BYOD visit the MSC website

- Locate the Parent Portal (bottom right)
- Select 'BYOD Purchase Portal'

Enter the code:

Maneasc2025

Students enrolled in MSC's Design, Media and Graphic Design courses are not obligated to purchase the above mentioned premium model as they have full use of the College's desktop computers in class. Students are only encouraged to purchase this premium laptop if they choose to do significant amounts of media and design work outside of their classes.

All students are welcome to bring an alternative device including those already used at home. Windows laptops are the most compatible, Mac and I pads are suitable, however we do not recommend Chromebooks.
